Freeland Pre-school is a Registered Charity [No: 1015592]

Food and drink

Safeguarding and Welfare Requirement: Health

Where children are provided with meals, snacks and drinks, they must be healthy, balanced and nutritious.

Policy statement

We regard snack and meal times as an important part of our day. Eating represents a social time for children and adults, and helps children to learn about healthy eating. We promote healthy eating using resources and materials from the Pre-school Learning Alliance. At snack and meal times, we encourage nutritious food, which meets the children's individual dietary needs.

Procedures

We follow these procedures to promote healthy eating in our setting.

- Before a child starts to attend the setting, we ask their parents about their dietary needs in relation to allergies. (See the Managing Children who are Sick, Infectious or with Allergies Policy.)
- We record information about each child's dietary needs in the Registration Form and parents sign the form to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs – including any allergies - are up-to-date. Parents sign the updated record to signify that it is correct.
- We display current information about individual children's dietary needs so that all our staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences, as well as their parents' wishes.
- We take care not to provide food containing nuts or nut products and we are especially vigilant where we have a child who has a known allergy to nuts. We ask parents not to send children in with food containing nuts.
- We show sensitivity in providing for children's diets and allergies. We do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy.
- We organise meal and snack times so that they are social occasions in which children and adults participate.

- We use meal and snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.
- We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the day.
- We give parents who provide food for their children information about which healthy snacks to provide.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.
- For children who drink milk, we provide whole pasteurised milk.

Packed lunches

- we inform parents of our policy on healthy eating;
- we encourage parents to provide sandwiches with a healthy filling, fruit, and milk based deserts, such as yoghurt or crème fraiche. We discourage sweet drinks and can provide children with water or milk;
- we discourage packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. We reserve the right to return this food to the parent as a last resort;
- we provide children bringing packed lunches with plates, cups and cutlery if required;
- we ensure that adults sit with children to eat their lunch so that the mealtime is a social occasion.

Legal framework

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the Hygiene of Foodstuffs.

Further guidance

- Safer Food, Better Business (Food Standards Agency 2011)
